Dear Customer,

In the next couple of weeks Alliant Energy is planning a project on or near your property. The Village of Footville has an upcoming road work project on Depot St. We plan to replace the gas main located within road right of way due to age and condition. We also will be replacing the service pipe from the main to your gas meter.

The project limits are Depot St from Railroad St to Janesville St. The project includes Centre St. and South St one block east and Sunset St. for one block. The project area is flagged and painted.

During some stages of construction, a brief natural gas outage may occur. Our crews will contact you ahead of time to arrange the outage at your convenience. The crews will then need access to the home to relight any appliances after your new service has been installed.

Any areas of disturbed lawn will be repaired with black dirt and seed. Concrete areas will be replaced as needed.

Thank you for your patience while these upgrades occur. If you have any questions, please call me at 608-757-7516

Sincerely,

Zach Stocks
